We value that every child is a unique child, who is constantly learning and developing new interests based on their experiences. We want them to be resilient, capable, confident and self-assured. As we hold these principles at the centrefold of our EYFS, we adjust planning according to the children's own interests and needs. This helps children access resources independently and develop a love for learning. We also have enabling environments that are constantly changing in response to the individual needs of our children. It is through this personalisation that we make sure that no child gets left behind.
