ROBLOX
 According to the Roblox website, Roblox is the world's largest interactive social platform for play. For those of you not familiar with the game, it is a multi-player online gaming platform which allows children to play and create a variety of games in a 3D world. Roblox is free to play and available on all desktops, smartphones, tablets, desktops, Xbox One, Oculus Rift, and HTC Vive.

NOS National Online Safety Top Tips for Parents

UNLESS SOCIAL MEDIA ACCOUNTS
 Warn kids not to give out social media accounts to strangers. If they do, advise them to make their profiles private and not to accept friend requests from people they don't know.

CHECK SHARED INFORMATION
 In the account settings, check that your child is not giving out any shared information to strangers. For example, their full name, phone number or email address. If you are not sure how to access this, go to the account settings and contact customer support.

2-STEP VERIFICATION
 Roblox has a good 2-step verification security feature which we recommend you enable to add extra security to your child's account.

HAVE A CHAT ABOUT 'GRIEFING'
 Griefing is when someone purposely ruins another player's game. This can be done by setting traps, blocking other players and other disruptive actions. Griefing is a form of cyberbullying and can be extremely harmful and upsetting to players.

RESTRICT PAYMENT METHODS
 Roblox is free to play game, but there are still options to make additional in-game purchases. It is important that you restrict payment options for your child to make purchases in the game. An account can be restricted using a parent's credit card. These can be prevented in Roblox's account settings. It is important that you check which payment methods are available and restrict them with your child.

IS YOUR CHILD UNDER 13?
 Information: There are a number of Roblox games showing children how to change their age settings on Roblox. To help, you should log in to your child's account and make sure they are under 13. For accounts having their birth date set to Roblox, you should contact customer support. It is worth checking that your child has set up their account with the correct age on the Roblox website.

DISABLE IN-GAME CHAT
 Roblox is great fun to play together and chat to each other. However, if you notice the complete chat in a game chatbox, you should restrict the chat settings. When you log in to the account settings page by clicking on the gear icon in the top corner of the page, have click settings. Next, click on the Privacy tab and under 'Who can chat with my game?' select 'None' and the 'No in-game chat' option.
